

# Exercise Generator Installation Guide

## Introduction

This document provides installation instructions for the following Clarity network program:

- **Exercise Generator**

A pdf copy of these instructions can be found at:

**www.ClaritySupport.com**

Click on Installation at the top of the panel labelled Technical. This link also directs you to installation information for the other Clarity programs.

## Installation details

- Put the CD into the computer and follow instructions. If the CD does not automatically run, from Start choose Run and type **D:\setup.exe** (where D is the CD drive letter).
- You will then be asked for your serial number, which is printed on a sticker on the box.
- The program can be installed to your computer or a network folder. A network folder must be shared with access for learners. As a minimum, select the folder after installation and right-click to see **Sharing and security...** Then share this folder with **Change** and **Read** options for Everyone. There is more information on sharing folders on [www.ClaritySupport.com](http://www.ClaritySupport.com).
- For networks you will not usually need anything else. Just drag **start-ml.exe** as a shortcut (hold down the **Alt** key) from Windows Explorer to each desktop and repeat for each version of **Exercise Generator**.
  - Modern Languages – **start-ml.exe**
  - English Elementary – **xg-ele.exe**
  - English Lower Intermediate – **xg-li.exe**
  - English Intermediate – **xg-int.exe**
  - English Upper Intermediate – **xg-ui.exe**
  - English Advanced – **xg-adv.exe**
- If the workstations do not have Adobe's Flash player (ActiveX or IE version) installed, you will need to install it on each one. Either visit [www.Adobe.com](http://www.Adobe.com) and install the latest Flash player for Internet Explorer – or use the file **ShockwavePlayers.exe** on the Exercise Generator CD. But please note that this is not the most recent version of Flash and should only be used if you have no other choice.

## Support

### Teacher support

Please also visit [www.ClaritySupport.com](http://www.ClaritySupport.com) for a range of teacher support materials relating to the use of ICT in general and to specific Clarity programs. These include:

- Transcripts of many of the interactive activities.
- Transcripts of many of the listening activities.
- Classwork activities in pdf format for printing and photocopying.
- Activities to help teachers get to know the programs quickly and easily.
- The syllabus.
- Background information on using ICT with your learners.

Some of these items are passworded to prevent learner access to these teacher support materials. There is a simple process for obtaining a password which is explained on the site itself.

### Technical support

If at any time you have any queries, please do not hesitate to contact our Technical Support team:
