### Clarity's Reaction

The 45 languages of help available on every CD make this a truly unique program. Cantonese students can learn English or Zulu with all the instructions and help in Cantonese. Or a French speaker can learn Spanish or Japanese with French as the language of instruction. Also, the perfect tool if you're going on holiday overseas and need survival vocabulary. Having the entire suite of 28 languages is truly impressive and encourages students to explore new languages. Ideal for self access centers.
