

Feature analysis

Content

Study Skills Success is an academic study skills program aimed at students at the upper end of secondary (high) school or those in further or higher education. The program focuses on the following eight areas:

1. Listening
2. Speaking
3. Reading
4. Writing
5. Grammar
6. Vocabulary
7. Research
8. Visuals

Visit www.ClarityEnglish.com for the full syllabus.

Ten key learning features

1. Extensive use of authentic materials from New Scientist, New York Times, the national Statistics website, the Cancer Council of NSW, Philip Morris and many others.
2. Includes a record and playback feature that enables students to practise answering questions, giving opinions and delivering short talks.
3. Explanatory feedback, enabling learners to understand why they have made a mistake.
4. Extension activities including research, writing and discussion activities enabling learners to synthesize information and develop arguments.
5. Includes focused help for IELTS candidates including awareness, preparation and practice materials. Also useful for preparation for other public exams.
6. A Progress function allows learners to analyse their strengths and weaknesses and plan their learning.
7. A systematic approach where, for example, learners analyse an assignment title, research it, plan the essay and, write it, and compare their answer with a model.
8. Clear, easy-to-use interface enables students to focus on learning.
9. An integrated website including links to research materials, model answers, downloads of authentic texts.
10. A practical approach focusing on skills students really need if they are studying in an English-language environment.

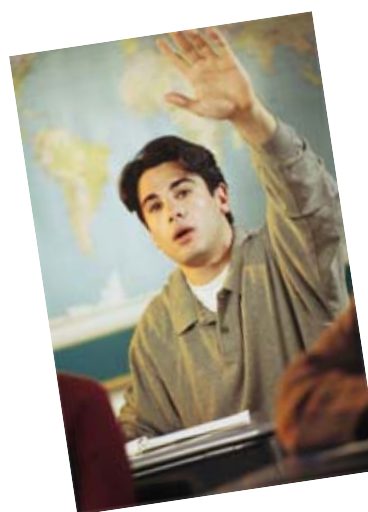

Download features and links

Each unit links to the Study Skills Success integrated website. This includes additional writing tasks, model answers, study sheets, MP3 audio files which learners can download, and links to relevant websites.

Progress features

The Study Skills Success Progress function generates reports on completed activities with score, time, duration; average scores compared with all learners; relative performance in different units (effort and outcome).

Teachers using Results Manager can generate and print reports for individual learners and groups of learners.

Integrated programs

Study Skills Success (optionally) integrates with Author Plus, which enables teachers to add, delete, reorder and amend activities, and with Results Manager (see *Progress features* above).

Dialect versions

1. International English
2. North American English

Technical

Network versions require Windows 2000/XP/Vista/7. Online versions are hosted by Clarity.
